

Fullname	Description
<i>Acacia acinacea</i>	Spreading shrub to 2mH x 1.5mW. Small neat crowded foliage and golden globular flowers in spring. Adaptable to most sunny situations. Very ornamental.
<i>Acacia brownii</i>	Small shrub 0.5-1mH x 1-2mW. Dark green spine-like foliage, longer than the normal form. Bright golden-yellow flowers in late winter and spring. Well drained site in some shade. A good low hedge plant.
<i>Acacia cheelii</i>	Erect or spreading large shrub to 6mH x 3mW with dense foliage. Long curved phyllodes and golden rod flowers in spring. Sunny well-drained site in dry light to medium soil. Handsome screen for cold climate.
<i>Acacia cultriformis</i>	Large shrub 2mH x 3mW. Grey triangular foliage and masses of golden flower balls in spring. Dry position in sun to part shade. Most draining soils. Long-lived attractive screen plant. Foliage good for floristry.
<i>Acacia deanei</i>	Tall shrub 3mH x 3mW with ferny leaves and pale yellow flowers in summer and sporadic. Dry or moist draining sandy or clay soils in open position. Quick shade or erosion control.
<i>Acacia decora</i>	Spreading shrub 1-2.5mH x 2-3mW with narrow grey foliage and golden flowers in spring. Golden new shoots. Hardy, low maintenance, adaptable, in moist well-drained or dry soils. Full or filtered sun. Very showy.
<i>Acacia filicifolia</i>	Erect tree 6-10mH with hairy branches and ferny leaves. Yellow ball flowers in late spring. Most well-drained soils in sun or part shade. Fast growing. Frost Hardy. Nth Tablelands plant.
<i>Acacia fimbriata</i>	Hardy small bushy tree 6mH x 5mW. Weeping narrow foliage fringed with small hairs. Brilliant yellow perfumed ball flowers in spring. Draining soils in sun or filtered shade. Attracts seed-eating birds.
<i>Acacia hakeoides</i>	Rounded shrub to 2mH x 2mW, green long oblong phyllodes. Yellow ball flowers in winter and easily harvested pods. Very hardy in sun or part shade on most soils. Great bushtucker seed after roasting
<i>Acacia implexa</i>	Small tree to 4-6mH x 4mW. Long curved foliage. Pale yellow ball flowers in autumn and much curved and twisted pods. Draining soils in full or filtered sun. A hardy species which tolerates dryness.
<i>Acacia lineata</i>	Small to medium bushy shrub 1.5mH x 1.5mW with small hooked foliage. Bright yellow globular flowers in spring. Grows in a wide range of soils in partial or full sun. Suitable for a hedge. Drought hardy.
<i>Acacia verniciflua</i>	Varnish Wattle. Variable shrub to 4mH x 4mW. Long elliptical foliage, shiny when young. Yellow ball flowers in spring. Hardy in fairly well-drained light to heavy soils. Best in dappled shade but will take full sun.
<i>Acacia vestita</i>	Beautiful weeping large shrub 3mH x 5mW. Hairy triangular grey-green foliage and golden flowers in winter and spring. Hardy in most soils in partial or full sun. Feature plant or hedge. Recommended.
<i>Ajuga australis</i>	Small spreading herbaceous perennial plant 0.2mH x 0.4mW with rosettes of dark hairy leaves. Spikes of blue purple flowers on 0.2m stems in spring-summer. Tolerant of most soils, sun or part shade and moisture.
<i>Allocasuarina diminuta</i> subsp. <i>diminuta</i>	Large shrub or small tree 2-5mH x 2-5mW with red flowers on female plants and cones to 20mm long. Adaptable to a variety of soils, moist and dry conditions. Occurs Pilliga to Temora.
<i>Allocasuarina gymnanthera</i>	Mallee shrub to 2mH x 2mW with needle like foliage and woody cones which attract black cockatoos. Full or part sun in dry sites. Drought and frost hardy when established.

Fullname	Description
Anigozanthos 'Orange Cross'	Kangaroo Paw. Vigorous clumping plant 1.2mH x 1.5mW, strappy leaves. Vivid orange flowers late spr & sum. Moist to dry well-drained soils, full to part sun. Recovers from frost damage. Water weekly in dry winter.
Anigozanthos flavidus (bright red)	Kangaroo Paw. Vigorous clumping plant to 1mH x 1mW with thick strappy leaves. Tubular red flowers on 2m stems in Nov- Feb. For light to medium soils in partial to full sun. Recovers from frost damage.
Anigozanthos flavidus hybrid (red)	Kangaroo Paw. Small, clumping container plant 0.3-0.5mH x 0.2-0.8mW, strappy leaves. Showy red flowers sum/aut. For light to medium well-drained soils in partial to full sun. Frost protect.
Arthropodium sp. B	Vanilla Lily. 0.3mH x 0.3mW. Grass like leaves, pretty pale lilac flowers on long stems to 0.8mH Nov-Feb. Anthers pale green. Most conditions in shade or part sun. Dies back in winter. Tubers can be eaten. Good in pots.
Banksia attenuata	Tall shrub/small tree 3-10mH x 3-5mW. Slender serrated leaves. Bright yellow cones in summer. Needs good drainage and full sun with frost protection. Difficult to maintain in Eastern States. Try limestone underlay or container.
Banksia baueri	Possum Banksia. Medium shrub 1.5mH x 1.5mW. Large serrated leaves. Very large woolly flowers, which have lemon styles with grey tips, persist for many months. Well drained sunny position. Very ornamental.
Banksia baxteri	Birds' Nest Banksia. A dense spreading shrub 3-4mH x 3mW, triangular lobed leaves. Showy lemony flower cones spring- autumn. For well-drained light to heavy soils in partial to full sun. Frost protection when young.
Banksia blechnifolia	Creeping plant 0.2-0.4mH x 2mW, horizontal branches, deeply lobed long dark-green leaves. Salmon flowers girt the plant from Sept-Feb. For a warm site, in well-drained soil, partial to full sun. Drought and frost hardy
Banksia burdettii	A much branched medium sized shrub to 1.5mH x 1.5mW. Spectacular bright orange flowers are borne at the end of branches. Prefers sandy or well drained acid soils. Drought and frost tolerant when established
Banksia hookerana	Dense rounded shrub 2-3mH x 2-4mW. Golden orange flowers appearing in spring. Requires light to medium well-drained soils in full or part sun. Drought resistant. Bird attracting plant. Useful as a low windbreak.
Banksia marginata	Large shrub to small tree 3-5mH x 2-3mW. Silver backed foliage. Yellow flowers in autumn and winter. Most well-drained positions. Tolerates some shade. Hardy banksia.
Banksia menziesii	Small tree to 6-7mH. Narrow toothed leaves. Silvery-red flowers with golden styles in spring. Needs well-drained light to medium soil with added lime. Full or part sun. Difficult in Canberra. Specialist plant. Try in large tub.
Banksia repens	Spreading prostrate shrub to 0.3mH x 2mW, horizontal branches, fern-like, dark-green foliage. Flowerheads yellow brown to dull red Aug-Jan. Well-drained soils in warm sunny spot. Good groundcover.
Banksia speciosa	Showy Banksia. Many branching shrub to 4m. Very long leaves with triangular lobes. Showy lemon cream flower cones spring- autumn. For well-drained light to heavy soils in partial to full sun. Frost protection when young.
Banksia undata var. splendens	syn Dryandra praemorsa. Bushy medium shrub 2-4mH x 2-4mW with long, toothed foliage. Yellow or pink flowers in spring. Prefers well-drained soil in dappled shade or part sun. Useful screening plant. Bird attracting.

Fullname	Description
<i>Billardiera candida</i>	A slender climber with wiry stems and linear dark green leaves. Showy white starry flowers in late spring/summer. For draining light to heavy soils in semi shade. Plant with other shrubs or on a small support.
<i>Blandfordia grandiflora</i>	Christmas Bells. Small narrow leaved tufty plant to 0.5mH x 0.4mW. Tall stems with groups of large waxy scarlet and gold bells in late spring-summer. Moist or wet well drained soils in full or filtered sun. Very good container plant.
<i>Brachyscome</i> 'Mauve Mystery'	Working on a new description - Stay Tuned!
<i>Bulbine semibarbata</i>	Leek Lily. Small perennial herb to 0.5mH x 0.1-0.3mW with succulent light green leaves. Many stems of yellow flowers to 1.4cm across in spring and summer. For most soils in sun to dappled shade. Good regeneration from seed.
<i>Callistemon</i> 'Lavender Showers'	Medium bottle brush 3mH x 1.5-2.W with attractive lavender flowers mostly in spring though intermittently throughout the year. Very hardy in a wide range of soils.
<i>Callistemon</i> 'Packers Selection'	Fast growing shrub with weeping habit, 1.5- 2mH x 1.5-2mW, with narrow pointed leaves and dark red bottle brushes in late spring. Full sun or semi shade in most dry or moist well-drained soils. Long flowering period. Bird attracting.
<i>Callistemon</i> 'Wilderness White'	Working on a new description - Stay Tuned!
<i>Callistemon citrinus</i> 'Angela'	Much-branched shrub 1-2.5mH x 1.5-3mW with strong narrow green foliage. Pink bottlebrushes tipped with white in spring & autumn. For most soils, even wet, in full sun. Prune for dense habit. Good for birds.
<i>Callistemon pachyphyllus</i> var <i>viridus</i>	Medium shrub 1.5mH x 1.5mW with fine green leaves. Interesting green flower spikes in spring and autumn. Will accept most soils and bad drainage but needs full sun. Prune heavily after flowering.
<i>Callistemon pallidus</i>	Erect large shrub 3mH x 2mW, sometimes taller. Elliptical leaves. Creamy yellow flowers in summer and autumn. Suited to most soils in sunny position. Prune after flowering. Hardy species.
<i>Callistemon pinifolius</i> (red)	Open medium shrub to 1.5mH x 1.5mW with very narrow sharply pointed leaves. Red flower spikes in summer. Full sun. Hardy and adaptable to most conditions, even poor soils. Prune for shape regularly after flowering.
<i>Callistemon pityoides</i> (pink)	Compact shrub to 2mH x 2mW with very fine leaves. Pink terminal brushes in summer. Hardy, for wet or moist sites in full or filtered sun. Prune after flowering.
<i>Callistemon rugulosus</i>	Syn <i>C. macropunctatus</i> . May grow to 4mH x 4mW with narrow pointed leaves. Very showy red flowers in summer. Adaptable to most soils and conditions in partial or full sun. Hardy plant. Prune after flowering for dense habit.
<i>Callistemon sieberi</i>	River bottlebrush. Large shrub to 3mH x 2mW with narrow leaves and cream flowers in summer. Hardy in most conditions with part or full sun. Prune to keep shape and promote flowering.
<i>Callistemon sieberi</i> (purple)	Large shrub to 3mH x 2mW with narrow leaves and purple flowers in summer. Hardy in most conditions even wet. Part or full sun. Prune to keep shape and promote flowering.
<i>Callistemon viminalis</i>	Weeping tree 6mH x 3mW with narrow leaves. Silky new growth. Long red brushes in spring, summer and autumn. Prune for autumn flowers. Takes draining soils in full sun. Not for frost hollows.

Fullname	Description
<i>Carex appressa</i>	Tall Sedge. A slowly spreading tussock which may grow to 0.8mH with brown flowerheads in spring and summer. It grows well in most positions even water logging, in full sun. It can handle dry periods.
<i>Casuarina cunninghamiana</i>	River Sheoak. Shelter or shade tree to 20mH x 12mW. Needle-like foliage, woody cones. Flowers Dec-Jan. Most soils, well- drained or damp, full sun. Grows on riverbanks. Controls soil by suckering. Very fast growing.
<i>Casuarina glauca prostrate</i>	Cousin It - Cascading ground cover without flowers. Long dark green needle-like foliage, spreading from a rounded mound. Most soils, full or part sun. Excellent in rockeries as it will cascade over rocks.
<i>Cheilanthes distans</i>	Resurrection Fern. Attractive upright clump 0.1-0.3mH with broad green crowded fronds. Accepts situations in sun or shade, with reasonable drainage. Will go dormant during extended dry periods, re-appearing after rain
<i>Chrysocephalum apiculatum</i>	Perennial herb 0.2-0.4mH x 0.5-2mW. Variable, green or grey leaves. Clusters of small golden flowers all the year. Needs reasonable drainage and sun. Good in massed plantings. Can be suckering.
<i>Chrysocephalum apiculatum</i> (green)	Small perennial herb 0.2mH x 0.5-2mW. Slender green leaves. Clusters of small golden flowers all the year. Reasonable drainage and sun. Prune in early spring. Good in massed plantings.
<i>Chrysocephalum apiculatum</i> (tall silver)	Small perennial herb 0.4mH x 0.5-2mW, not suckering. Broad silver leaves. Clusters of small golden flowers spr/sum/aut. Needs reasonable drainage and sun. Good in massed plantings. Prune in early spring.
<i>Convolvulus angustissimus</i>	Small plant 0.1H x 0.5mW with a trailing habit. Rosy pink flowers Oct-Mar. Good mulch substitute supressing weeds..Drought hardy
<i>Correa</i> 'Bindaga Pink'	Small shrub 0.75mH x 1.5mW. Dark green oval leaves with pink flowers from late Autumn through winter. Dry or moist draining soils in shade or semi shade. Frost hardy. Bird attracting. Bred by Bilby Blooms
<i>Correa</i> 'Kiss me Kate'	Small dense shrub 0.6mH x 2mW with rounded leaves. Pink bells in autumn and winter. For draining clay soils in moist or dry conditions in part sun or shade. Long flowering, attracts birds. Prune regularly.
<i>Correa</i> 'Pink Delight'	Small dense shrub 0.4mH x 2mW with oval leaves. Pinky lilac and white bells in autumn and winter. For a wide range of draining soils in moist or dry conditions in full sun or shade. Long flowering, attracts birds. Prune regularly.
<i>Correa</i> 'Redex'	Small shrub 1mH x .8m. Interesting small rounded leaves, pink/red and yellow flowers throughout cooler months. Hardy plant in draining soils in full or filtered sun. Bird plant.
<i>Correa</i> 'White Tips'	Shrub 1.5mH x 1.5mW . Very pretty pink bells with white tips in autumn and winter. For draining soils in moist or dry conditions in full sun or shade. Attracts birds. Prune regularly.
<i>Correa</i> 'Wins Wonder'	Working on a new description - Stay Tuned!
<i>Correa alba</i>	Handsome shrub 1-2mH x 1-2mW. Round greyish leaves. White starry flowers most of the year. Likes dry or moist well-drained soils. Semi-shade to full sun.
<i>Correa decumbens</i>	Prostrate shrub x 3mW with narrow dark green leaves, greyish below. Narrow red bells with green tips, held upright, in summer. Moist or dry well-drained soils in full or filtered sun. Bird plant. Good for banks.

Fullname	Description
<i>Correa glabra</i>	Rounded shrub 1.2-1.8mH x 1.2-2mW. Smooth rounded leaves, green bell flowers in winter. Well-drained soil in half or full shade. Good screen, attracts birds.
<i>Correa glabra</i> (red)	Rounded shrub 1.2-1.8mH x 1.2-2mW. Smooth glossy leaves, red bell flowers in winter. Well-drained soil in half or full shade. Good screen, attracts birds.
<i>Crinum flaccidum</i>	Darling Lily. Large clumping plant 0.5-1mH with leaves weakly erect or spreading. Large white flowers in spring or summer. For most well-drained soils in a sunny protected spot e.g. under eaves.
<i>Crowea exalata</i>	Rounded hardy shrub to 0.7mH x 0.7mW. Linear leaves and star-like white to pink flowers in autumn and spring. Most positions in well-drained mulched soils. Good pot plant.
<i>Crowea exalata</i> 'Southern Stars'	Small fine-leaved shrub 0.6-1mH x 1mW with small waxy pink star flowers in spring, summer and autumn. For well-drained soils in filtered or full sun.
<i>Crowea saligna</i>	Small shrub 1.5mH x 1.5mW with elliptic leaves. Pink star-like flowers in autumn and winter, and sporadic. Part sun in most relatively well-drained soils, if well mulched. Ornamental plant. Good cut flower. Semi shaded position best.
<i>Dampiera linearis</i>	Suckering plant to 0.6mH x 0.5mW, grey- green leaves. Blue flowers, white & lemon throat Sept-Nov. For well-drained light to medium soils in part to full sun. Rockery or hanging basket.
<i>Derwentia perfoliata</i>	Perennial to 0.6mH x 1mW with arching stems of grey green ovate leaves. Terminal sprays of bright blue flowers in summer. Full sun to part shade. Very hardy. Prune off old stems late winter.
<i>Dianella</i> 'Currabubula'	Blue Berry Lily. Attractive plant with grey blue leaves to 0.75mH x 1mW. Pale blue flowers along 1m upright stems in spring & summer, develop into profuse large showy bright blue tasty fruits. Accepts most soils and aspects
<i>Dianella</i> 'Uralla'	Mini Flax Lily. Tufted plant with flax- like leaves, suckering to form clumps to 1mW. Bright blue flowers on branched stems, bright blue fruits. Very hardy. Ideal garden plant especially for rockeries, great border plant.
<i>Dianella longifolia</i> var. <i>longifolia</i>	A tufty plant to 0.3-0.7mH x 0.5mW. Flower spikes to 1.5m with pale blue flowers in spring; small purple berries follow. For a wide variety of soils in full sun to part shade or a spot with other small shrubs.
<i>Dianella revoluta</i>	Spreading Flax Lily. Tufted plant with flax- like leaves, suckering to form clumps to 2.5mW. Bright blue flowers on branched stems, bright blue fruits. Very hardy. Ideal garden plant esp. for rockeries.
<i>Dianella tasmanica</i>	Flax Lily. Tufted plant with thick strap leaves to 1mH. Blue flowers in long spikes spring-summer followed by stunning purple berries. Wide range of soils including heavy clay. Use throughout the garden as a contrast plant. Very hardy.
<i>Dodonaea heteromorpha</i>	Erect shrub to 3mH x 1.5mW with narrow divided leaves. Male plants have pretty coronets of anthers, female plants have decorative red four-winged fruits in spring. Likes a well-drained open sunny spot.
<i>Dodonaea viscosa</i> subsp. <i>angustifolia</i>	Tall bushy shrub to 4mH x 1.5mW, narrow shiny foliage. Male plants striking circlets of anthers & female plants colourful fruits. Draining light to medium soils in most spots (except heavy shade). Good screening plant.
<i>Eremophila</i> 'Ros'	<i>E. racemosa</i> x <i>maculata</i> . Showy shrub 1mH x 1mW with orange buds and pink flowers in spring to early summer and after heavy rain. Bird attractant. Frost tolerant. For draining soil in full or part sun

Fullname	Description
<i>Eremophila alternifolia</i> (dark pink)	Large shrub 3mH x 3mW with very narrow leaves. Dark pink tubular flowers with darker spots occur mainly in spring. Warm sunny dry site, good drainage, protection from heavy frosts. Tip prune. Pots.
<i>Eremophila calorhabdos</i> x <i>denticulata</i>	Upright shrub to 1.5mH with glossy leaves and profuse pink flowers in spring. Well drained soils in full sun. Prune regularly from an early age. Drought & frost tolerant. Bird attractant.
<i>Eremophila debilis</i>	Syn <i>Myoporum debilis</i> Prostrate ground cover x 1mW. Long narrow leaves. Pink flowers in spr/sum then edible berries. Accepts most soils in filtered of full sun. Takes drought and moderate frost.
<i>Eremophila glabra</i> 'Belalla Gold'	Prostrate plant 0.2mH x 2mW with bright green leaves, abundant yellow flowers from autumn to spring. Bird & bee attractant. Drought and frost tolerant. For draining soils in full or part sun.
<i>Eremophila maculata</i> 'Aurea'	Vigorous small shrub 0.9mH x 1-2mW with dark green leaves and bright lime-yellow flowers that are well-displayed. Good drainage and sun or semi-shade are best. Will tolerate heavy soils. Responds to pruning.
<i>Eremophila maculata</i> x <i>racemosa</i>	Medium upright shrub to 1.5mH. Yellow then orange buds open to pink flowers with a white fringe inside the throat of the flower. For a wide range of soils in full to part sun. Prune to shape. Bird attractant.
<i>Eremophila microtheca</i>	Heath-like shrub 0.3-1mH x 0.5-1mW with small silvery leaves. Profuse lilac flowers Aug-Sept. Should grow in a wide range of soils in a warm spot with overhead cover. Affected by dry winters. Rare in nature.
<i>Eremophila waittii</i>	Working on a new description - Stay Tuned!
<i>Eucalyptus</i> 'Little Princess'	Mallee to 4mH x 3mW. Decorative bark, upright habit, grey foliage & large red/pink flowers April-June. Draining acid to slightly alkaline soils. Full to part sun. Protect from heavy frost when young. Bred by Bilby Blooms
<i>Eucalyptus</i> 'Silver Princess'	<i>Eucalyptus caesia</i> subsp. <i>magna</i> . Mallee 8-15mH x 3-5mW, decorative bark, pendulous branches, glaucous foliage & large red flowers June-Nov. For fairly well-drained acid to slightly alkaline soils, sunny site. Frost protection when young.
<i>Eucalyptus blakelyi</i>	Medium tree to 20mH x 10-15mW with short straight trunk & widely spreading crown. White flowers Aug-Dec. Adapts to many soil types. For shade, woodlots & windbreaks on farms. Good Koala tree.
<i>Eucalyptus cinerea</i>	Argyle Apple. Small to medium tree 8- 15mH x 8-15mW. Attractive glaucous cordate juvenile foliage, and glaucous adult foliage. White flowers Oct-Dec. Adapts to most well-drained soils. Responds to hard pruning and coppicing.
<i>Eucalyptus eximia nana</i>	Yellow Bloodwood. A tree to 5mH x 3mW with a dense canopy and large bluish adult leaves. Showy cream flowers follow very attractive green buds in spring. For draining acidic soils. Not for frost hollows.
<i>Eucalyptus leucoxydon</i> subsp. <i>rosea</i>	Small tree 6-8mH x 5-6mW, clean bark, long leaves. Large, deep pink flowers during year. Most dry or moist reasonably drained soils in full or part sun. Withstands dry periods.
<i>Eucalyptus macrocarpa</i>	Sprawling mallee shrub 1-4mH x 1-4mW, with opposite large silvery leaves. The glaucous buds are followed by showy pink- red flowers (10cm) throughout the year. Accepts most draining soils. Frost and drought tolerant
<i>Eucalyptus melliodora</i>	Yellow Box. Handsome tree 10-20mH x 8- 20mW with attractive trunk. Blue-grey leaves and cream flowers in autumn. Takes dry or moist well-drained soils in full

Fullname	Description
<i>Eucalyptus pulverulenta</i>	Small twisted tree to 8mH with silver-grey stem-clasping foliage. White flowers from Sept-Nov. Hardy in sun in well-drained soils. May be pruned hard or coppiced. Good foliage contrast, used in floral arrangements.
<i>Eucalyptus pyriformis</i> var <i>elongata</i>	Working on a new description - Stay Tuned!
<i>Eucalyptus sideroxylon</i> var. <i>rosea</i>	Tree 10-20mH x 5-10mW, ornamental blue green foliage, black bark & attractive pink flowers May-Oct. For a wide range of soils conditions. Frost, drought and salt tolerant.
<i>Eucalyptus staigeriana</i>	Lemon scented Ironbark. Slender upright small eucalypt to 3mH. Crushed leaves give a sweet lemon smell, can be used in cooking/teas. Accepts most soils to heavy loams. Frost, wind and drought tolerant.
<i>Eucalyptus stoatei</i>	Slender upright mallet to 1.5-3 mH. Many yellow flowers are borne from bright red ridged buds mostly in the summer. Accepts most soils to heavy loams. Frost and wind resistant and drought tolerant. Withstands occasional waterlogging
<i>Eucalyptus trachyphloia</i>	Handsome medium tree to 15mH with rough tessellated flaky brown bark. Terminal white to cream inflorescences during summer to early autumn. Suitable for free draining soils. Frost and drought hardy.
<i>Eucalyptus youngiana</i>	Mallee 1.5m-4mH x 1-3mW. This small ornamental eucalypt is known for the beautiful huge buds and red flowers throughout the year. Drought and frost tolerant on non water logging soils. Prune hard to rejuvenate.
<i>Eucalyptus youngiana</i> (yellow)	Mallee 1.5m-4mH x 1-3mW. This small ornamental eucalypt is known for the beautiful huge buds and yellow flowers throughout the year. Drought and frost tolerant on non water logging soils. Prune hard to rejuvenate.
<i>Ficinia nodosa</i>	Syn <i>Isolepis n-</i> . Knobby Club Rush. Small slow spreading perennial 0.5-1.5mH x 0.6-2mW, green upright stems. Dense globular red-brown flower heads just below the stem tip. For moist soils (takes dry times) in sun to part shade.
<i>Gastrolobium latifolium</i>	Syn <i>Brachysema l-</i> . Trailing prostrate plant x 1-3mW with orange-red pea flowers in autumn and winter. Adaptable but prefers well-drained soils with partial or full sun. Often slow to start. Excellent for embankments.
<i>Goodenia hederacea</i> (narrow)	Delightful vigorous, suckering, prostrate to 0.4mW with long narrow toothed leaves. Small yellow flowers in summer and autumn. Most soils suitable in part sun to semi-shade. Drought and frost hardy, great rockery plant
<i>Goodenia hederacea</i> (Torrington)	Robust prostrate species to 1.2mW with attractive trailing grey leaves. The large yellow flowers appear from late spring to autumn. Suits most soils in part sun to semi shade.
<i>Goodenia varia</i>	Small shrub 0.1-0.6mH x 0.5-1.5mW with oblong, usually toothed, foliage. Yellow flowers are sporadic throughout the year. Likes well-drained soils in sun. Responds to pruning. Good for hanging baskets, or embankments
<i>Grevillea</i> 'Apricot Glow'	An evergreen fast growing shrub to 2mH x 2mW. Masses of apricot coloured flowers in winter and spring. Tolerates wide range of soil types including limestone and clay, drought and frost hardy.
<i>Grevillea</i> 'Big Red'	Large shrub to 3.5mH x 2-4mW. Large lance-shaped leaves and light red hanging flowers Jun-Jan. Vigorous, adapts to most free draining soils. Prefers sun but accepts light shade. Light pruning. Bird attracting hedge.
<i>Grevillea</i> 'Burgundy Beauty'	A small to medium shrub to 1.5mH. x 3mW Soft long toothed green leaves with purple/red toothbrush flowers in Spring and Summer. Hardy plant tolerant of heavier soils, drought and frosts. Prune to shape. Bird attractant.

Fullname	Description
Grevillea 'Carol Ann'	Decumbent spreading shrub to 2mW. Dense non prickly foliage with an occasional upright branch. Dark red flowers are borne most of the year. For sun or semi-shade in most draining soils. Frost and drought hardy. Good for birds.
Grevillea 'Copper Rocket'	Large shrub to 3mH x 2mW (may be bigger), dark lobed green leaves & copper new growth. Pale pink-purple toothbrush flowers spr to aut. For most acid to neutral moist soils. Useful screen. Attracts birds. Prune to shape.
Grevillea 'Crith Cross'	Rounded shrub 1.5 mH x 1.5 mW with greyish foliage. Masses of fragrant pink to white flowers, winter to spring. Draining acidic or slightly alkaline soils, full sun to shade. Frost and drought hardy. Bird refuge. Bred by Bilby Blooms
Grevillea 'Flora Mason'	Vigorous medium shrub to 3mH x 2mW. Masses of beautiful lemon to pink flowers are a feature from late Autumn to early Spring. Accepts full sun to part shade, in clay to sandy loams. Drought and frost tolerant.
Grevillea 'Grassfire'	Vigorous ground cover spreading to 3mW. Attractive green pinnate leaves with prolific bright red toothbrush flowers in Spring. For draining soils in part sun.
Grevillea 'Iced VoVo'	Large shrub 2.5mH x 3mW. Long deeply lobed leaves with pale and deep pink toothbrush flowers in spring and summer. Well drained site in sun or semi-shade. Excellent quick growing screen plant. Nesting sites for birds.
Grevillea 'New Blood'	A low, spreading shrub .25mH x 1.5mW, which flowers for most of the year. The flowers are deep red and bird attracting. Great as a feature ground cover plant for rockeries and banks as well as for pots. Grows in draining soils from sandy to clay. Drought and frost hardy.
Grevillea 'Old Gold'	Low mounding shrub 0.3mH x 1mW. Golden green foliage with gold new growth, apricot flowers most of year. Moist well- drained soils in full or filtered sun. Does not like to dry out. Pruning recommended. Bird attracting.
Grevillea 'Pink Lady'	Small spreading shrub 0.3-0.6mH x 2-3mW with narrow prickly foliage. Pink spider flowers from July-Jan and sporadic. Adaptable to most soils. Best in full sun, but tolerates shade and extended dry periods.
Grevillea 'Pink Pixie'	Compact small shrub to 1mH x 1mW. Masses of pink spider flowers are seen in Winter and Spring, contrasting with dark green leaves. Suitable for well drained sunny position. Frost and drought tolerant.
Grevillea 'Poorinda Constance'	Bushy shrub to 3mH x 3-5mW. Oblong dark green leaves. Bright orange to red flowers May-Dec and sporadic. Most well-drained soils, even alkaline, sun or part shade. Prune. Protect from very heavy frosts.
Grevillea 'Poorinda Rondeau'	Medium shrub 1.5-2mH x 1.5-3mW, with shiny dark-green oval leaves. Showy, profuse bright pinkish-red flowers July-Nov. For most well-drained acid soils in sun. Hardy to most frosts. Prune lightly for good shape.
Grevillea 'Primrose Carpet'	Decumbent spreading shrub to 2mW. Dense non prickly foliage with an occasional upright branch. Bright yellow flowers are borne most of the year. For sun or semi-shade in most draining soils. Frost and drought hardy. Good for birds.
Grevillea 'Winpara Gem'	Upright shrub 2-3.5mH x 2mW with finely divided grey-green leaves and orange red spider flowers in win/spr. For dry or moist well drained site in full or part sun. Not for frost hollows. Tolerates lime. Prune regularly.
Grevillea 'Winter Kiss'	Ground covering plant to 0.15mH x 1mW with bright green leaves. Smothered in red and cream spider flowers in winter/early spring. For a well-drained sunny spot. Great bird plant and very hardy. Bred by Bilby Blooms

Fullname	Description
<i>Grevillea crithmifolia</i>	Rounded shrub 2mH x 4mW with grey green divided foliage. Masses of pink to white flowers at branch ends, late winter to late spring. Most acidic or slightly alkaline soils, good drainage, part shade to full sun. Frost and drought hardy. Bird refuge.
<i>Grevillea iaspicula</i>	A medium shrub 1.5-2.5mH x 1.5-3mW with narrow light green foliage. Cream and red flowers from May-Nov. For draining soils in sun to semi-shade. Prune for bushy growth. Rare and endangered plant.
<i>Grevillea lanigera</i> (Mt Tamboritha)	Prostrate shrub to 2mW. Neat grey-green leaves, red and cream flowers in autumn, winter and spring. Dry or moist well-drained soils in filtered or full sun. Small groundcover or rockery plant. Attracts birds.
<i>Grevillea leiophylla</i>	Small shrub to 0.3mH. Linear leaves, erect clusters of pink spider flowers throughout year, peaking in spring. Tolerates sites that are poorly drained. Will sparsely sucker. Frost hardy.
<i>Grevillea miqueliana</i>	A bushy shrub 1-2.5mH x 2-3.5mW with oval foliage. Orange-red flowers are very showy from Jan-May and Aug-Oct. Adaptable providing drainage is adequate. Prefers semi-shade. Prune lightly for a good shape.
<i>Grevillea obtusifolia</i> 'Gin Gin Gem'	This excellent groundcover grows to 3mW. Pale reddish flowers from April-Nov, often poorly displayed, but the bright green dense foliage provides an attractive effect. For well- drained soils in sun or semi-shade.
<i>Grevillea pinaster</i> (low)	Small shrub to 0.2-1mH x 2mW with pointed linear leaves. Profuse pendent clusters of red flowers winter-spring. Adapts to most soils in a warm sunny spot. Frost protect when young. Good bird plant.
<i>Grevillea thelemanniana</i> (green)	Dense shrub 0.5mH x 1-2mW, fine bright green leaves. Showy, red flowers May-Oct. For a wide range of soils in a warm, sunny, sheltered spot. Takes hard pruning. Frost protect when young.
<i>Grevillea victoriae</i> 'Lindsay's Pink'	Shrub to 2mH x 2mW with grey- green oval leaves with silvery backs. Pretty pink pendulous flowers in winter and spring. Hardy in well-drained position. Prefers semi-shade but will withstand full sun. Bird plant.
<i>Hakea</i> 'Burrendong Beauty Baby'	A seed grown shrub 0.5-2mH x 1-2mW, with stiff blueish green leaves. Conspicuous two toned red/pink/maroon or cream flowers at the base of most leaves in winter. For draining soils in part sun. Prune for bushy growth.
<i>Hakea</i> 'Molly Lace'	Working on a new description - Stay Tuned!
<i>Hakea</i> 'Morgan'	Working on a new description - Stay Tuned!
<i>Hakea</i> 'Tessa'	<i>H. multilineata</i> x <i>grammatophylla</i> A variable shrub to 2.5mH, with narrow grey-green leaves to 16cm long Showy crimson pink scented flowers appear in the leaf axils from March to August. Draining soils in a sunny to part shaded site. Drought and frost hardy.
<i>Hakea bucculenta</i>	Erect shrub 2mH x 2mW with long narrow leaves. Attractive spikes of red flowers in spring. For a sunny dry spot in light to medium well-drained soils. Protect from strong winds. Great cut flower. Attracts birds.
<i>Hakea coriacea</i>	Erect shrub 5mH x 3mW with long leaves. Attractive spikes of cream & red flowers in spring. Dry spot in light-med soils with good drainage. Sun or part shade. Drought and frost hardy when established.
<i>Hakea decurrens</i>	Medium suckering shrub to 2mH x 1mW with young red stems. Fine prickly foliage. Profuse white flowers follow pink tinged buds in winter. For well-drained soils in shade to full sun. Good refuge for small birds.

Fullname	Description
Hakea francisiana	Erect shrub 5mH x 3mW with long leaves. Attractive spikes of hot pink flowers in winter to spring. Dry sunny warm spot in light-med soils with good drainage. Prune when young for windy sites. Attracts birds. Drought, lime and frost hardy when established.
Hakea francisiana x bucculenta	Erect shrub 3mH x 3mW with long leaves. Attractive spikes of hot pink flowers in winter to spring. Dry sunny site in light-med soils with good drainage. Prune when young for windy sites. Attracts birds. Drought, lime and frost hardy.
Hakea laurina	Pincushion Hakea. Erect or weeping shrub to 4mH x 4mW, long oblong leaves. Showy round heads of red and cream flowers, autumn & winter. For a sunny draining site. Not for frost hollows.
Hakea multilineata (maroon & cream)	Outstanding large upright shrub 3-4mH x 2mW. Long narrow stiff leaves and spikes of vivid maroon and cream flowers in winter and spring. Draining soils in filtered or full sun. Grow with other plants. Bird plant & tall hedge.
Hakea nitida	A medium shrub to 1mH x 2mW. Firm broad leaves have sharp teeth which help make this plant a good screener. Masses of perfumed white flowers occur in late winter. Full to partial sun in draining soils. Frost hardy
Hakea obtusa	Rounded shrub to 2mH x 1.5mW, with blunt elliptical leaves. Copious bright pink flowers on old growth in spring. For well-drained soils and most aspects. Prune lightly. Good ornamental screen plant.
Hakea petiolaris	Tall shrub 3mH x 2mW with rounded grey-green leaves. Green/pink sea urchin flowers aging to cream/maroon in autumn and winter. Needs reasonable drainage and plenty of sun. Prune lightly.
Hakea salicifolia	Fast growing dense shrub 5-8mH x 4mW with long elliptic dark green leaves. White flowers in winter/spring. For most soils, even boggy. Suits most aspects. Responds to pruning. Good hedge or screen plant. Attracts birds.
Hakea salicifolia (fine leaf)	Fast growing dense weeping shrub 5-8mH x 4mW with long narrow leaves. White flowers in winter/spring. For most soils, even boggy. Suits most aspects. Responds to pruning. Good hedge or screen plant. Attracts birds.
Hardenbergia violacea	Ground cover or trailing plant to 1.5mW with lance-shaped leaves. Masses of purple flowers in spring. Full sun to partly shaded draining position. May be pruned hard. Not for frost hollows.
Hardenbergia violacea (pink)	Groundcover or trailing plant to 1.5m-2mW with lance-shaped leaves. Masses of pink flowers in spring. Full sun to partly shaded well-drained position. May be pruned hard. Some frost damage. Not for frost hollows.
Homoranthus papillatus	A sculptural shrub to 1mH x 1- 2mW with horizontal branches and grey- green linear leaves. Yellow flowers in late spring. Hardy in most soils and aspects. Foliage and habit are a feature. Excellent for bonsai.
Homoranthus prolix	Working on a new description - Stay Tuned!
Isotoma fluviatilis	Small creeping plant spreading to 0.5mW with small round crowded foliage and blue star flowers in spring and summer. Wet sunny position. Suit poolside, boggy sites or in a pot.
Jacksonia scoparia	A shrub to 4mH x 2mW, often tree-like in form, with pendulous, leafless branches. Profuse yellow/red pea flowers in late spring. For most reasonably drained soils in full sun to part shade.
Kennedia nigricans	A vigorous climber or ground cover with lobed dark green leaves and attractive black and yellow pea flowers. Fast growing, useful for quick coverage of ugly fences or banks. Hardy plant, tolerant of drought, light frost and shade.

Fullname	Description
<i>Kennedia rubicunda</i>	Large vigorous climber or creeper. Oval leaves in threes and red pea flowers Aug-Dec. Adapts to a wide range of soils and conditions. Best in semi-shade. May be damaged (not killed) by heavy frosts. Bird plant.
<i>Kunzea parvifolia</i>	Spreading plant 2mH x 2mW with tiny heath-like foliage. Mauve fluffy flowers in spring. For most soils in full or filtered sun. Spring spectacle.
<i>Kunzea pomifera</i>	Muntrie - Prostrate woody shrub, spreads to 1.5mW, with small shiny round leaves and feathery white flowers in late spring. Purplish edible berries. Needs full or part sun and reasonable drainage. Popular bush food plant.
<i>Leionema elatius</i> x <i>lamprophyllum</i>	Medium shrub to 1.5mH X 1.5mW, with small round dark green leaves. Heads of white flowers in winter/spring. Suitable for draining soils in sun and dappled shade. Wonderful small hedging plant.
<i>Leptospermum</i> 'Pink Cascade'	Small shrub 0.5-1mH x 1-1.5mW, dark green pointed leaves. Reddish buds open to pink flowers in spring & often in autumn. It is adaptable in most soils in sun & semi-shade. May be clipped or pruned.
<i>Leptospermum</i> 'Purple Haze'	Working on a new description - Stay Tuned!
<i>Leptospermum polygalifolium</i>	Syn <i>L. flavescens</i> . Shrub 3mH x 2mW with light green oblong leaves. Many scented white flowers in spr/sum. Easy to grow in a wide range of soils from wet to dry in most aspects. Fast growing. Prune for use as a hedge.
<i>Libertia paniculata</i>	Tufted grass-like perennial to 0.5mH with white flowers on slender branching stems among leaves in spring. For moist well-drained soils in light or heavy shade. Use with ferns, in rockery pocket or pot.
<i>Maireana oppositifolia</i> 'Smokey'	Working on a new description - Stay Tuned!
<i>Melaleuca decussata</i> (compact)	Medium shrub to 1.5mH x 1.5mW, fine crowded grey-green foliage. Dense pink to mauve flowerspikes in spring & summer. Suits most soils and aspects, even winter wet. Prune or clip if needed.
<i>Melaleuca stypheloides</i>	Prickly Paperbark. A medium tree 8-15mH x 5-8mW, with attractive papery bark and prickly dark green leaves. Showy white flowers late spring & summer. For a wide range of soils and situations. Refuge plant for wildlife.
<i>Melaleuca suberosa</i>	A low spreading shrub to 0.6mH x 1mW. Tiny linear leaves. Mauve-pink flowers crowd along angular corky branches in spring. Can perform well under established trees in semi-shade. Responds to pruning, and moisture in winter.
<i>Melaleuca thymifolia</i>	Small rounded shrub to 1mH x 1mW with small grey elliptic foliage. Purple, pink or white claw flowers in late spring to autumn. Hardy plant in sunny site. Enjoys moist position but tolerates dry. Prune after flowering.
<i>Microseris lanceolata</i>	Yam Daisy. Small perennial herb 0.4mH x 0.3mW. Slender basal leaves and yellow daisy flowers from October. Fairly well-drained soils in sun or part shade. Drought hardy. Rockery or pot plant. Edible roots/yams, dormant over summer
<i>Microtis uniflora</i>	-0.6mH. Inflorescence to 0.6mH with up to 100 small green-yellow flowers. Dies back in summer, comes back during the next winter. Can be divided late summer when dormant. Takes full sun to part shade, drought and frost hardy.
<i>Myoporum parvifolium</i>	Prostrate ground cover to 1.5-2mW with narrow fleshy leaves. White star flowers in spring and summer. Hardy in most soils in a well-drained sunny to semi-shaded position. Attractive hardy plant.

Fullname	Description
Pandorea pandorana 'Ruby Belle'	Twining climber with glossy oval leaves. Red/maroon bell flowers mainly in spring. Well-composted soils in some shade. Fast-growing. Prune well. Some frost damage when young or in heavy frosts. Ideal screen.
Philotheca 'Winter Rouge'	Small shrub .8mH x .8mW with slightly warty foliage. A profusion of white flowers follow pretty pink buds from winter to spring. For draining neutral to acid soils in sun to part shade. Prune to keep bushy.
Philotheca myoporoides	Syn Eriostemon myoporoides. Rounded medium shrub 1-2mH x 2mW with elliptical grey-green leaves. Masses of white star-like flowers, pink in bud, in spring. Reasonable drainage in most soils, full sun or shade. Very hardy.
Philotheca myoporoides 'Flower Girl'	Medium shrub 1mH x 1mW with slightly warty foliage. Profuse pink buds followed by white flowers cover the bush from winter to spring. For well drained neutral to acid soils in sun to part shade. Prune to keep bushy.
Pimelea 'Magenta Mist'	Small rounded shrub to 1mH x 1.5mW, with small shiny leaves. Heads of magenta pink flowers cover the bush in late spring & summer. For moist well-drained soils in sun to part shade. For rockery or with other shrubs.
Pimelea linifolia (pink)	Erect small shrub to 1mH x 1mW with fine foliage. Showy nodding heads of pink flowers July-Jan. For a wide range of draining soils in semi-shaded to shaded sites. Prune when growing well to promote bushy growth.
Pratia concolor	Attractive groundcover prostrate-0.2mH x 0.4-1mW forming a close mat. White or light blue star like flowers in spring & summer. For heavy soils periodically damp in sun to part shade. Responds to pruning. Good pot plant.
Prostanthera 'Mauve Mantle'	Attractive groundcovering plant 0.6mH x 1.5mW with small dark green leaves and mauve flowers in spring. Reasonable drainage and some overhead cover best. Excellent container plant. Good under trees.
Prostanthera gilesii	Small, compact plant to 1mH x 1mW, with dark-green shining leaves. Large white to cream flowers blotched violet in the throat. For a well-drained spot in dappled shade to part sun. Protect from hot winds. Mulch well.
Prostanthera saxicola (Torrington)	Small spreading shrub 0.3mH x 1mW. Dark green leaves, very pretty dark pink/purple flowers in spring. Reasonable drainage in part sun. Great under trees. Useful ground cover. Mulch well.
Prostanthera sp. Dunedoo Gap	Upright shrub to 1mH x 1mW with small aromatic hairy leaves, sometimes with maroon tinge. Mauve to purple flowers in spring. Light to medium draining soils in full sun to semi-shade. Bee attracting.
Prostanthera teretifolia (purple)	Working on a new description - Stay Tuned!
Rhagodia spinescens	Spreading grey leaved plant 0.5m-1mH x 2mW with fire resistant foliage. Grows in most soils in sunny sites. Responds to pruning. Good low maintenance hedge or ground cover. Toughy. Contrast plant.
Rubus parvifolius	Climber or mounding shrub with stems to 1m with lobed leaves. Red or pink flowers in spring followed by sweet edible red fruits in autumn. Hardy in most soils in sun or semi- shade. Prune often. May sucker.
Sollya heterophylla Blue	A vigorous climber or twining shrub, to 3mH. Lovely blue bell flowers in clusters throughout year, mainly July to March followed by fleshy green fruits. Accepts moderate to good drainage in alkaline and acid soils. Frost hardy.
Sollya heterophylla Pink	A vigorous climber or twining shrub, to 3mH. Lovely pale pink flowers in clusters throughout year, mainly July to March followed by fleshy green fruits. Accepts moderate to good drainage in alkaline and acid soils. Frost hardy.

Fullname	Description
<i>Spiranthes australis</i>	Ladies Tresses. A small orchid that favours well drained moist sites, with part shade in drier sites. Hot pink flowers arranged in a spiral on the stem are a Christmas bonus.
<i>Stypandra glauca</i>	Nodding Blue Lily. Tufting plant with blue- green leaves to 1mH x 0.6-1.2mW. Sprays of starry blue flowers with yellow anthers in spring. For well-drained soils in part shade.
<i>Swainsona galegifolia</i>	Perennial to 1mH with multiple stems of pinnate leaves. Large sprays of pink pea flowers. Sunny position in all but very wet soils. Cut back old stems after flowering to get lush new growth.
<i>Swainsona galegifolia</i> (burgundy)	Upright plant to 1.5mH with many stems of pinnate leaves. Sprays of burgundy pea flowers spr/sum/aut. For most soils (not wet) in sun. Prune old stems after flowering.
<i>Templetonia retusa</i>	Spreading shrub to 2mH x 2mW. Rounded green leaves. Large red pea flowers in win/spr. Good for heavier soils in full sun to semi- shade. From limestone areas.
<i>Thelionema caespitosum</i> (blue)	Tufted plant with grass-like leaves 0.3m long. Deep blue star flowers on slender branched stems in summer. Relatively well- drained position in good sunlight. Containers or open ground.
<i>Thelionema caespitosum</i> (fine leaf)	Tufted plant with fine blue-grey grass-like leaves 0.2m long. Deep blue star flowers on slender branched stems in summer. Relatively well-drained position in good sunlight. Containers or open ground.
<i>Thelionema caespitosum</i> (white)	Tufted plant with grass-like leaves 0.3m long. White star flowers on slender branched stems in summer. Relatively well- drained position in good sunlight. Does well in containers or open ground.
<i>Thelionema grande</i>	Tufted plant to 1.2mH x 0.3mW, with broad strappy leaves. Blue star-like flowers appear on slender branched stems in spring. For light to medium soils in sun or part shade. Very frost hardy.
<i>Veronica derwentiana</i> (blue)	Upright robust perennial 1mH x 1mW with toothed leaves. Masses of pale blue flowers in terminal sprays in summer. Accepts dry to moist soils in full to part sun. Cut stems after flowering. Drought & frost hardy
<i>Viola hederacea</i>	Native Violet. Small spreading ground cover forming extensive mats in damp areas. Round leaves. White and purple violet- shaped flowers for long periods. Full sun to part shade. Dies back in winter. Useful for hanging baskets.
<i>Viola hederacea</i> (blue)	Native Violet. Small spreading ground cover forming extensive mats in damp areas. Round leaves. Blue flowers for long periods. Hardy in full sun to full shade. Dies back in winter. Useful for hanging baskets.
<i>Westringia</i> 'Wynyabbie Gem'	Hardy rounded shrub 1.5mH x 1.5mW with linear leaves and blue-mauve flowers most of year. Prefers full sun and tolerates most soils. Takes wind and drought. Fast grower. Good hedging plant.
<i>Westringia</i> 52	<i>W. fruticosa</i> x <i>longifolia</i> Medium shrub 2.5mH x 2mW. Dense grey-green foliage with white flowers in spring and summer. Extremely hardy fast growing screen, full sun to partial shade. Suitable for difficult positions.
<i>Westringia brevifolia</i> var. <i>raleighii</i>	Medium shrub 1.5mH x 1.5mW. Silvery grey foliage, mauve flowers all year. Very hardy with well-drained soil in sun or semi- shade. Responds to pruning for compact bushy growth. Ideal for low clipped hedge.
<i>Westringia eremicola</i> (mauve)	An erect open shrub to 1.5mH x 1mW with linear leaves. Mauve flowers in spring and summer. A hardy plant in well drained soils in sun to semi-shade. Prune for bushy shape.

Fullname	Description
Westringia eremicola (purple)	An erect open shrub to 1.5mH x 1mW with linear leaves. Purple flowers in spring and summer. A hardy plant in well drained soils in sun to semi-shade. Prune for bushy shape.
Westringia fruticosa 'Zena'	Small shrub to 0.75mH x 1mW. Grey-green foliage with white flowers mainly in spring. Hardy in most soils in full sun or partial shade. Suitable for shrubbery or low hedge.
